GEOFLUID 2010

Bigger international attendance expected at the 18th edition of the only European show dedicated to drilling and foundations

The 18th edition of **GEOFLUID** will take place in Piacenza (Italy) from 6th to 9th October 2010. The event, which is undoubtedly the biggest in Europe dedicated to the drilling and foundation industry, will cover, as for the past editions, 4 main business areas:

- **GEOFLUID** Technologies and Equipment for Prospecting, Extracting and Conveying Underground Fluids.
- **GEOTECH** Rigs and Equipment for Geotechnical and Site Investigations, Deep Foundations and Horizontal Directional Drilling (No-Dig).
- **GEOCONTROL** Instrumentation and Equipment for Environmental Analysis, Monitoring and Land Reclamation.
- **GEOTUNNEL** Tunnelling Machines, Equipment and Instrumentation.

The 2010 edition, **GEOFLUID** will focus again on **GEOTHERMAL DRILLING**, which is showing a terrific growth in most of the European Countries (Italy included, of course).

Hoping we can include your company among the ones booking a stand at **GEOFLUID 2010** (for which our company is the international representative office), we enclose you herewith an application form you can use to reserve the exhibiting area of your interest, along with useful technical information about the event.

If you intend to visit **GEOFLUID**, we also inform you that entering the website www.geofluid.it you can register on-line, receive an email confirmation and print immediately your show pass.

For any further information, you can contact our company:

MEDIAPOINT & COMMUNICATIONS SRL
